## **GROWSPAN GOTHIC PREMIUM** HIGH TUNNELS FEATURE 6' SIDEWALLS, **MAXIMIZING GROWING SPACE AND QUALITY**

Our Gothic Premium High Tunnels allow growers to significantly modify their growing environment, allowing them to get their crops to market earlier and potentially enabling a 50 percent increase in both yield and profit. Besides providing more growing space, the tall sidewalls allow tractors and other machinery to be used within the tunnel, and the tunnels can be outfitted with support and rafter kits, making them an ideal option for those in regions with heavy wind and snow loads.

### **The GrowSpan Gothic Premium High Tunnel Advantage:**

NRCS funding available - Visit your local NRCS office for details.  
Triple-galvanized, USA-made, steel frame - Corrosion resistant and long lasting.  
Multiple covering options.  
20'W tunnels have 16'W x 10'H door.  
26'W and 30'W tunnels have 20'W x 10'H doors.

Gothic Style with 4' rafter spacing and 6' sidewalls.  
Protection from weather, disease and pests.  
Roll-Up or Drop-Down Sides - For quick and easy ventilation.  
Rafter and Support Kits available - Provides added strength and allows for heaters, lights, fans or plants to be hung.  
Increased growing space and ventilation.
