GROWSPAN ROLLING PREMIUM HIGH TUNNELS PREVENT SOIL NUTRIENT DEPLETION, DISEASES AND SIMPLIFY CROP ROTATION

Our Rolling Premium High Tunnels allow growers to extend the growing season, enabling crops to get to market earlier and potentially increase profits by up to 50 percent. The tunnel sits on pipe track rollers, making it easy to move the tunnel around your land. This action helps with crop rotation and reduces the risk of nutrient depletion and soil-borne diseases, all while protecting crops from inclement weather, disease and pests.

The GrowSpan Rolling Premium High Tunnel Advantage:

- NRCS funding available - Visit your local NRCS office for details.
- Triple-galvanized, USA-made, steel frame with 5 rows of purlins - Provides corrosion resistance, strength and durability.
- Round style with 4' rafter spacing and multiple covering options.
- Smooth rolling action for easy movement.

- Roll-Up or Triple-zippered end panels are made from rip-stop translucent fabric - Features clips to easily attach.
- Heavy-duty partial wall end framing and durable wind bracing.
- Four-sided ventilation - Roll-Up Sides with assembly makes ventilation quick and easy.
